1. Go to my website and read through Discussion 2 (Lists), Discussion 3(Links), and Disucssion4 (Images).
2. Now find three images and save them inside your pix folder. My images were: pizza.jpeg, puppy.jpg, and lilies.png. All file names must be short, no spaces, exactly as saved and are case sensitive. Use the windows File Explorer to make sure you are doing it correctly.
3. **Now open index.html in Notepad++ and select save as and change the name to template.html. Then, select save as again and save as lists.html. Do all of your work in the lists.html page.**
4. Within the lists.html page, you should use the following code as a guide and work through lists, images and links.

```html
1   <!DOCTYPE html>
2   <html lang="en">
3   <head>
4       <title> Deb Wilson Lists, Images, & Links </title>
5   </head>
6   <body bgcolor="#004d99" text="#e6f2ff">
7       <h1> Lists Page </h1>
8       <h2> Unordered list (favorite things) </h2>
9       <ul>
10          <li> Pizza </br><img src="pix/pizza.jpeg" height="100px" width="100px"></li>
11          <li> Puppies </br><img src="pix/puppy.jpg" height="100px" width="100px"></li>
12          <li> Flowers </br> <img src="pix/lillies.png" height="100px" width="100px"></li>
13      </ul>
14      <h2> Ordered list (favorite things) </h2>
15      <ol>
16          <li> Nate </li>
17          <li> Oona </li>
18          <li> Summer </li>
19      </ol>
20      <h3> Link to Files </h3>
21      <ul>
22          <li> <a href="index4.html"> index.html </a></li>
23          <li> <a href="lists.html"> lists.html </a></li>
24          <li> <a href="template.html"> template.html </a></li>
25      </ul>
26  </body>
27  </html>
28
```

Run it by double clicking the file in the Window File Explorer and check with your classmates. Remember to use W3 schools for help!
